The image shows a screenshot of the SiteMARC CONTROL CENTER interface. The title bar at the top reads "SiteMARC" and "CONTROL CENTER". The main window is titled "Virtual Site Management". It features a table with columns for Name, Backend Server Name, Port, and SSL. The table contains two rows of data. To the right of the table is a large empty rectangular area. At the bottom of the window are three buttons: "Add", "Modify", and "Delete".

Name	Backend Server Name	Port	SSL
ws0.widgets.com	server1.company.com	80	off
ws1.widgets.com	server2.company.com	80	off
